## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the Superintending School Committee and Citizens of the Town of Greenwood.

The past year has been one of added responsibilities for the school department as for every department of local, State and National government.

The school officials and teachers of Greenwood have accepted their added duties cheerfully. The loss of time for the pupils incurred by rationing registration would be regrettable were it not for the fact that we are asked to do this work as an aid to securing the future safety of our boys and girls in a democratic country.

There have been only two changes among the teachers since last year. Miss Marjorie Hatch succeeds Miss Ruth Johnson, who resigned to accept a position in Portland, Maine. Madelyn Tyner succeeds Mrs. Charlotte Folsom at Richardson Hollow. Mrs. Folsom accepted a position in Windham, Maine.

These new teachers as well as those who have served us longer are faithful and efficient workers.

Our high school students are maintaining a standard of scholarship which is highly creditable. A large percentage of the names on our high school enrollment have appeared on the honor rolls of the schools they are attending.

In considering the appropriations for the next school year, there are several things to be noted.

The balance on hand is, to be sure, larger than last year but as one considers the increasing cost of maintenance in every line it seems only to be expected that our schools will demand financial support comparable to increased cost of labor and supplies. Through the help of the equalization fund we have been able to increase our teachers salaries and to purchase needed books and supplies hitherto impossible. Greenwood is sharing in this fund as a reward for its strug-

gle in trying to keep its schools on a high level. It is only as we continue our struggle that we shall be eligible to share in this fund.

The shortage of teachers, the higher cost for janitor service and the greatly increased cost of fuel must be met.

Your superintendent appreciates the sacrifice that has been made in supporting the schools of Greenwood and she feels sure that the education of the boys and girls will not suffer because of the higher cost in providing it.

There are soon to be several changes in the matter of conveyance. These changes must be made to conform to the orders of the Federal Government and are not made at the volition of local school authorities. It is hoped that parents and pupils affected by the changes will accept them as a part of their contribution to the War Program.

The high school tuition bill grows larger from year to year. With twenty-nine pupils registered in high school this year including only four seniors and ten pupils enrolled in the eighth grade, it is evident that the expense of high school tuition will increase.

The overdraft in the repair account of the past year is due to the unexpected cost of making a new and much larger cesspool at Lockes Mills. This should be satisfactory for many years. In considering repairs for the coming summer, the Tubbs building must be shingled and the interior of the Lockes Mills building should be painted. The usual minor repairs in all buildings must be provided for.

Your committee has thoroughly and conscientiously discussed the matter of appropriations and were unanimous in the figures recommended.

Once more I wish to thank the superintending school committee and other town officials, the teachers, pupils parents and citizens for their cooperation as I strive to further the interests of the Greenwood schools.

Respectfully submitted,

CARRIE M. WIGHT

Superintendent of Schools
